Subject: My changes to the Coded Comments worksheet
Attachments: Coded Public Comments_Ag Hydromod WetlandsHR.xlsx

Hi Allison

I understand that you are working on consolidating the comments that are similar. I have made some changes to the spreadsheet you sent out on May 21st for the ag comments. Mainly I have added in some comments that seemed to be missing from the category worksheets (I marked these additions at the right). I also added in the 4 additional comments I have found so far in the NWEA letter and made some editorial and spelling corrections. I hope this is helpful.
